# 100+ YEARS OF FOREST AND STILL GROWING

Dodge's Shepard Farm property in Cottage Grove, MN was not accessible to families until you rallied together to open the gates. A parking lot, restrooms, and hand washing stations were needed before trail exploration could begin. Your donations made these projects come to life.

Thanks to a conservation easement put in place in 1994, this special greenspace is protected from housing development. It now features community gardens, rental space to house your own honey bee box, and hiking trails through a forest that is over 100 years old. Be sure to look for more programs and camps popping up at this property now that facilities to bring visitors in are in place.

Greenspace provides an oasis for plants and wildlife, but also benefits community health and wellness. It is an atmosphere for learning and helps reduce stress. Numerous science journals are published regarding how nature spaces are critical for improving mental health, childhood development, and also increasing economic value. Thanks to you, more people will obtain the green benefits at this beautiful location. Don't forget to plan a visit, or two, or more, for your own family and friends.

## COULD A GIFT FROM YOUR IRA BE RIGHT FOR YOU?

If you are a longtime volunteer and donor like Pete Fleming, you may have reached the age where you are required to take a distribution from your IRA—70½. Recently he started directing part of his IRA required minimum distribution (RMD) to Dodge Nature Center. We talked with Pete about why this worked well for him.

### *Why did you decide to start doing an IRA rollover for your charitable donation?*

After talking to people in a similar financial situation and to my tax accountant, I realized this would allow us to increase our giving.

### *Why is this a good way to make your gifts?*

It has encouraged me to give more, which is great for Dodge Nature Center and for me to support my own environmental goals. It's also a good way to give the money I'm required to take from my IRA as a minimum distribution (RMD). It can roll directly to Dodge Nature Center tax-free.

### *What do you want others to know about making an IRA donation?*

It's amazingly easy! Talk to your financial advisor or your IRA manager to have the check come directly to Dodge. You can do it any time of year and you can do all of the RMD, or just part of it.

### *Why is Dodge an organization you choose to support?*

I give because I believe it's incredibly important that we humans have an understanding of our environment, and Dodge aims to develop that in the highest quality and most effective way I know. The staff, volunteers, and facilities are exemplary and I can trust that my gift is appreciated and will be used responsibly.

Thank you, Pete, for your generous support of environmental education at Dodge Nature Center. If you would like to join Pete in making a contribution from your IRA, please consult your tax advisor to see if an IRA Rollover is right for you. If making an IRA Rollover donation, you'll want to make sure the check comes directly to Dodge Nature Center to avoid taxation. Questions?
